Wanalirri ECE Newsletter Term 2

Dear Parents and Families, Early Childhood Education (ECE) is a focus on all students in the early years of their education. This time is very important as children are growing and developing at a very fast rate. They are also learning the basic understandings that so much of their later learning builds upon. Much of the learning at this stage is play-based, that is, using free and structured play activities to explore ideas and discover information and understandings about their world.
